

# geoSALT™ Ice Melter

**Solid de-icing products for the  
Professional Snow Removal Contractor**

**geoSALT™  
Ice Melter**

**GeoSalt®** is a granular ice melter that is derived from a blend of **Geomelt 55®** and processed NaCl.

- Reduce chlorides in environmentally sensitive areas when compared to highway rock salt use.\*
- Screened to reduce equipment jamming fine particles
- Low application rates allow for up to 30% further coverage than highway rock salt\*
- geoSALT's patented organic chemistry allows for faster ice-melting
- Effective to -30°C
- Won't attract animals -Pet Friendly\*
- Won't harm vegetation or expensive landscaping\*
- Saves on material and labour costs

*\*When used as directed.*

**geoSALT®** is engineered as a cost effective commercial ice melter ideal for roadways, parking lots and any large application areas.

A product of

**FUTURE**  
ROAD SOLUTIONS INC.

## DESCRIPTION: - Granular Ice Melter

**geoSALT<sup>®</sup>** Ice Melter is a natural agricultural product derived from renewable resources and blended with sodium chloride aggregate that features snow and ice control performance superior to traditional rock salt but less corrosive. **geoSALT<sup>®</sup>** will reduce rock salt application rates by 30% and substantially reduce operating costs while providing a sustainable and environmentally sensitive alternative.

## APPLICATION:

**geoSALT<sup>®</sup>** de-icer's enhanced performance allow for application rates of 30% less than normal rock salts. This reduced consumption along with less chlorides results in the overall reduction of corrosiveness to surfaces, when used as directed.

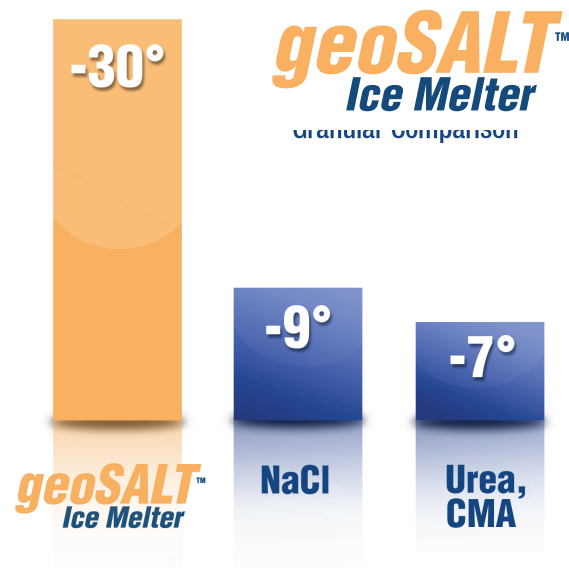

## HANDLING & STORAGE:

**geoSALT<sup>®</sup>** is dispensed utilizing normal mechanical spreader methods and with **GEOSALT<sup>®</sup>** technology, it will not bridge or clump in transportation or storage.

## Production Location:

Future Transfer Co. Inc.  
55187 Talbot Line, Aylmer, Ontario N5H 2R3

*GEOMELT USA approved Canadian Manufacturer and Distributor.*
